Description: The Policy Paper Writing Seminar will take place from the **7 to 11 May 2018**. Sessions will include lectures, class discussions, group work, and peer-editing sessions. The concluding day of the training will be devoted to presenting papers to the wider public and discussion. The training programme is designed to enhance the capacity of young scholars, activists and policy-makers in writing policy briefs on various regional topics. It is essential for regional development to work with local experts and scholars who know the region and can offer policy recommendations and solutions, but at times lack substantial experience and skills to present their ideas in the right format. Thus the policy writing seminar is aimed at solving this issue and increase the potential pool of experts and policy briefs submissions for the Academy's series. The programme maintains the OSCE Academy's regional focus and invites participants from all Central Asian states and Afghanistan.
