Internship Guide

MA Programme in Politics and Security 2022-2024
MA Programme in Economic Governance and Development 2022-2024

Bishkek, 2022

1 Mandatory Requirement

In accordance with the Academic Regulations of the OSCE Academy, students are required to pursue their internships during the second Fall semester of their programme. This internship obligation follows the requirements presented in the curriculum standards set out by the Ministry of Education and Sciences of the Kyrgyz Republic. A total of 12 credits is obtained for the successful completion of the internship.

2 Objectives

The internship is an important element of practical education and a prerequisite for students' successful completion of the Master of Arts programme and constitutes a further qualification in view of future professional activities. During the internship period, a student should become familiar with practical activities in areas relevant to her/ his field of study and consider them from a point of academic inquiry following the instruction received at the Academy.

The internship should also serve as an opportunity to gain valuable insights into practical aspects and areas of professional activities related to the student's academic interest and with relevance to the student's future career plans.

3 Scope and Timing

The internship should be pursued during the second Fall semester of the academic programme. (September – October) It should be completed and officially verified prior to the submission of the MA Thesis. Internship period might be subject to change only upon consent of all parties.

The minimum duration of the internship is **eight weeks**. In certain cases, an internship extension can be granted if the consent of all parties is received (hosting institution; student; OSCE Academy). The student should submit an internship extension request to the Head of the Graduate Education Department at least two weeks prior to the formal ending of the internship period.

A student can request further changes/ modifications to the duration and organization of the internship, if this facilitates his/ her thesis-related research work, thesis supervision, or incorporation of specific internship-related activities. The student should submit a request stating the reasons for such internship modifications to the Head of the Graduate Education Department as soon as the need for such changes/ modifications arises.

4 Placement and Implementation

It is the responsibility of the student to choose a suitable institution for his/ her future internship. The Academy's management does not provide internships but offers advice, guidance, and support in the form of potential contacts, visa applications (if required), and additional financial support (if required) (see below). *A student cannot claim an internship placement from the Academy, but only support for her/ his efforts to find and apply to institutions for internship placement.*

The internship should be pursued in institutions working in the areas related to the subjects covered during the academic programme or in the areas relevant to a student's MA thesis topic. The OSCE Academy encourages students to apply for internships to the OSCE institutions and field offices, as well as other intergovernmental and non-governmental organizations working in the areas of comprehensive security and economic development.

Employment of any kind will NOT be considered as internship. Additional remuneration received by a student for work that forms part of the internship must be immediately reported to the OSCE Academy (the Head of the Graduate Education Department or the Head of the Financial Unit).

An internship placement (hosting institution; scope of activities; supervisor) must be approved by the Head of the Graduate Education Department. The internship provider, the student, and the OSCE Academy must sign an internship agreement stipulating the responsibilities and the rights of each party involved.

5 Internships Offered by the OSCE Academy's Partner Institutions¹

The OSCE Academy, in co-operation with its partners, offers several internship placements (please see Annex 1) The number of such internship placements may vary each year, and existence of certain internship positions in one year does not mean and guarantee availability of the same internship opportunities for the next year.

The Academy's management, in co-operation with the partner institutions, recruits students for these placements based on students' academic achievements, merits, qualifications, research interests, and other competences. Deadlines and modalities for applying to such internship opportunities are announced early in the Winter semester. The Academy provides support to students during the recruitment process, yet *the final decision with regard to hosting a particular student as an intern and internship period is always made by the partner institution at its own will*. Student are requested to consider lengthy selection processes and engage into proper contingency planning (regarding their thesis work, internship, and related travels).

6 Financial Support

Students receive a stipend to cover their living expenses during the internship period. The OSCE Academy covers air travel costs from Bishkek to the internship placement country and back (within Central Asia only). In certain cases, the OSCE Academy might decide to cover travel costs outside of Central Asia. These cases are considered only upon a student's written request submitted to the Head of the Graduate Education Department at least one month before the planned starting date of the internship and in exceptional circumstances only.

Travel and living costs during the internship period indicated in Section 5 are covered by the OSCE Academy and/ or with the support of the host institution.

All internships are considered to be pursued on a voluntary basis, and students should not receive any remuneration or compensation of any costs from the internship provider. If the internship provider still offers remuneration in any form, the student must immediately inform the OSCE Academy (Head of the Graduate Education Department or the Head of the Financial Unit).

7 Supervision During Internship

The internship provider should appoint a person from its staff, who will be responsible for supervision of the student's activities during the internship period. The supervisor is expected to fill out the internship completion form.

¹ The list of internship placements is subject to change every year.

8 Verification

Upon internship completion, the internship provider (supervisor) is expected to issue a written certificate in the format provided by the OSCE Academy to be submitted to the Graduate Education Department.

Students must prepare an internship report, including a chronological overview of activities performed with their personal reflections on certain aspects or activities.

9 Liability

It is a responsibility of a student to apply for a Visa, check all the documents in advance and prepare for International Internship arrangements by checking housing, ticket dates and other information which might be relevant. Student admitted to International Internship should provide a complete set of documents in accordance with the list of requirements of each Visa issuing Embassy/agency in order to avoid delays in visa processing. If Visa will not be granted due to the incomplete set of documents submitted to the Embassy/agency the Visa fee will not be reimbursed. If Student misses the flight due to the circumstances within control, the OSCE Academy will claim the cost of the tickets/ or require to provide boarding passes.

The OSCE Academy provides only support with issuance of different supporting documents within its capacity.
